1pm & 7:30pm

PRICES  
Full: \$22  
Group 4+: \$18

**“Engaging and with an important message about inclusion, Robot Song is a remarkable work aimed at kids 8-12, carrying a strong but not preachy anti-bullying rallying cry.”**

— Melbourne Comedy Festival

When eleven-year-old Juniper May receives a petition signed by her entire class stating that she is ‘the most hated person in the school’ her life is thrown into complete meltdown.

After exhausting all other avenues, her parents resort to the only thing they have left, a giant singing robot.

Based on a true story, **Robot Song** illustrates the profound, transformative nature of creativity, that when combined with unconditional love, becomes an unstoppable force.

Produced by NCM & Jolyon James

"If I could give it six stars I would..."

— The Adelaide Advertiser

Join professors Lexi Con and Noel Edge (the Word Nerd and the Science Freak) for a thrilling voyage through the alphabet – where great big chewy sesquipedalian words inspire mind-blowing scientific surprises.

Professor Lexi Con has curated a curious collection of her favourite words (one for every letter of the alphabet) with each word providing Professor Noel Edge with a jumping off point for 26 scientific demonstrations that squish, squirt, float and fly.

This dad-joke quipping, prank-pulling performance is equal parts explosive, messy, spectacular, hilarious, fascinating and gross. If things weren't exciting enough, every show is completely different, with audiences determining the order in which the letters are revealed and explored. Plus, this is a race! With only 2 minutes per experiment, will they make it in time...?
